A high energy, semi-concentrate Oat Balancer, formulated for working Horses

- **Dunstan Athlete** has been formulated to provide a concentrated source of nutrients to the diet of the racehorse/performance horse. It is a semi-concentrate designed to meet the working horse's requirements for **protein, minerals & vitamins**, without the need for further supplementation.
- As it is a **semi-concentrate**, Oats or alternative preferred unfortified ingredients can be added to meet the individual horse's energy demands for body condition and performance.
- The inclusion of the cooked **extruded cereals** (Barley and Maize) supplies a readily available energy source but in a **highly digestible** form less likely to cause digestive upset as a result of excessive fermentation of starch in the hindgut.
- The **'Super Fibre' Sugarbeet** is included which contributes fibre for digestive health & calories for the energy demands of a performance product.
- Added Vegetable Oil **enhances skin** and **coat condition** as well as providing a concentrated source of calories, contributing to the energy density of **Dunstan Athlete**.
- **Dunstan Athlete** contains a comprehensive formula of minerals. Minerals are provided as **glycinate organic trace minerals** resulting in **improved bio-availability**. This ensures maximum feed and nutrient utilisation, also **aiding development of the natural immune system**.
- **Organic Selenium** as **Selenium Yeast** is included to provide a **highly available** and **safe** form of Selenium.
- **Dunstan Athlete** includes highly bio-available **Natural Vitamin E**.

FEEDING RECOMMENDATIONS

Amounts per horse per day when offered as the full feed

Light work	1.5 – 2kg plus Oats as required
Moderate work	2.5 – 3kg plus Oats as required
Hard Work	3 – 3.5kg plus Oats as required

The above recommended feeding rates for **Dunstan Athlete** are based on a 500kg horse. Daily feed amounts will vary depending on available pasture, body condition and individual metabolic rate.

FEEDING NOTES

- Ensure adequate fibre intakes by providing 1% - 1.5% per day of the horse's body weight as **Dunstan Betabeet/Sugarbeet, Fiber Fresh products**, chaff, hay or pasture (on a Dry Matter basis).
- It is advisable to split the daily hard feed into at least two feeds, preferably 3-4, but feed no more than 2.0 kg of **Dunstan Athlete** per meal.
- Always introduce a new feed gradually over a period of 7 - 10 days.
- Always ensure the horse has access to clean drinking water.
- High copper levels in **Dunstan Athlete** make it unsuitable for feeding to sheep.

INGREDIENTS:

Extruded Maize, Extruded Barley, Bran & Pollard, Peas, Sunflower Seeds, Sugarbeet Flakes, Extracted Soya Bean Meal, Soya Bean Oil, Molasses, Salt, Limestone, Magnesium Oxide, Lysine, Vitamins and Minerals.

Typical Analysis (Dry Matter Basis)

Crude Protein.....	13.5 %
Fibre.....	4.5 %
Fat.....	11.5 %
Salt.....	2.5 %
Energy DE.....	15.5 MJ/Kg

Nutrient Composition – per kilo of Dunstan Athlete (as fed)

Crude Protein.....	120 g
Lysine	9.0 g
Calcium.....	14.5 g
Phosphorus.....	6.0 g
Sodium.....	10.0 g
Chloride.....	14.0 g
Potassium.....	9.0 g
Magnesium.....	3.0 g
Iron.....	280 mg
Zinc (Organic).....	240 mg
Manganese.....	90 mg
Copper (Organic).....	70 mg
Cobalt.....	0.8 mg
Iodine.....	1.5 mg
Selenium (Organic).....	.75 mg

Vitamin A.....	20,000 iu
Vitamin D.....	2,000 iu
Vitamin E.....	250 iu
Vitamin K.....	4.0 mg
Thiamine B1.....	12.0 mg
Riboflavin B2.....	12.0 mg
Pyridoxine B6.....	5.0 mg
Vitamin B12.....	100 ug
Niacin.....	40 mg
Pantothenate.....	20 mg
Biotin.....	200 ug
Folic Acid.....	3.0 mg
Choline.....	300 mg

Heat stable Vitamins added at time of manufacture.

Dunstan Horsefeeds are produced in Equine-Safe manufacturing plants. Professionally formulated for New Zealand Horses performing under New Zealand conditions.
