SHOW JUMPING	HUNT SECTORS

A Premium Quality, Fully Extruded Performance Nugget

- **Dunstan Eezymix** is a fully extruded cereal and protein-based complete horse feed in the form of a highly digestible and palatable extruded nugget.
- As a medium energy feed utilising premium quality ingredients, **Dunstan Eezymix** is the ideal feed for competition horses of all codes.
- **Dunstan Eezymix** contains two oilseeds (**Linseed** and **Full Fat Soya**), and a blend of Vegetable Oils (Soya Oil and Rice Bran Oil) to provide the ideal complement of the essential fatty acids **Omega 6, 3 and 9**, to aid in **skin condition and coat sheen**.
- The energy and protein (amino acids) content of **Dunstan Eezymix**, makes it ideal to feed in conjunction with **Dunstan Betabeet/Dunstan Sugarbeet**. Quality fibre is provided through the Dunstan **Betabeet/Sugarbeet** to assist in meeting the horse's daily fibre requirements as well as enhance digestive health.
- **Dunstan Eezymix** provides a balance of energy sources from the cereal grains, **Rice, Barley, Maize** and digestible oil sources.
- **Dunstan Eezymix** is fully extruded, this aids digestion and minimizes the risk of digestive upset associated with undigested grain in the hindgut.
- **Dunstan Eezymix** contains **Rice**, a well digested gluten-free cereal grain.
- **Oils** are included in **Dunstan Eezymix** for energy and to **enhance coat and skin condition**.
- **Gamma Oryzanol** found within **Rice Bran Oil** is a valuable component to **assist with muscle repair and body building**.
- A comprehensive formula of **Minerals and Vitamins, Organic Amino Acid Mineral Complexes**, plus **Organic Selenium Yeast** and **Vitamins** with **Natural Vitamin E**, ensure maximum feed and nutrient utilisation, plus support to the natural immune system.

INGREDIENTS:

Extruded/cooked **Rice**, Extruded/cooked **Barley**, Extruded/cooked **Soya Bean Meal**, Extruded/cooked **Maize**, Extruded/cooked **Bran and Pollard**, **Soya Bean Oil & Rice Bran Oil** (providing **Omega 3, 6 & 9**), **Linseed**, **Salt**, a comprehensive formula of **Organic Amino Acid Mineral Complexes, Organic Selenium Yeast & Vitamins, Limestone** (for Calcium).

TYPICAL ANALYSIS (Dry Matter Basis)

Crude Protein	14.0 % minimum
Fat	6.0 % maximum
Fibre	5.0 % maximum
Salt	1.0 % maximum
Energy DE	14.5 MJ/Kg

NUTRIENT COMPOSITION

per kilo of Dunstan Eezymix (as fed)

Crude Protein	130g minimum
Calcium	9.0g
Phosphorus	4.5g
Sodium	2.5g
Chloride	4.5g
Potassium	8.0g
Magnesium	3.0g
Iron	140mg
Zinc (Organic)	140mg
Manganese	125mg
Copper (Organic)	50mg
Cobalt	0.4mg
Iodine	1.0mg
Selenium (Organic)	0.4mg

Vitamin A	10,000i.u
Vitamin D	1,000i.u
Vitamin E	125mg
Vitamin K	2.0mg
Thiamine B1	6.0mg
Riboflavin B2	6.0mg
Pyridoxine B6	5.0mg
Vitamin B12	50ug
Niacin	20mg
Pantothenate	10mg
Biotin	100ug
Folic Acid	1.5mg
Choline	150mg

Heat stable Vitamins added at the time of manufacture

FEEDING RECOMMENDATIONS

Maintenance/Spelling	2kg	Per Day
Light work	2-3kg	Per Day
Moderate Work	3-4kg	Per Day
Hard Work	4-5kg	Per Day

The above figures are guidelines only and are based on a 500kg body weight. Feed amounts will vary depending on pasture availability, body condition and an individual metabolic rate.

NOTES:

- Divide the daily feed into as many feeds as possible, at least two, but feed no more than 2kg of **Dunstan Eezymix** per feed.
- If pasture is limited, increased levels of fibre must be added to the diet. The minimum requirement of 1.0% of the horse's body weight must be fed as fibre each day, (on a dry matter basis). Supplementary fibre can be provided in the form of hay, chaff and **Dunstan Betabeet/Dunstan Sugarbeet**.
- Always ensure horses have access to clean, fresh drinking water.
- High Copper levels in **Dunstan Eezymix** make it unsuitable for feeding to sheep.

Dunstan Horsefeeds are produced in Equine-Safe manufacturing plants.

Professionally formulated for New Zealand Horses performing under New Zealand conditions
