Trifecta Oil

A blend of three Vegetable Oils to provide the essential fatty acids required for optimum coat sheen and performance for all horses

- **Dunstan Trifecta Oil** provides a 'cool' energy source to the ration of grain-sensitive horses, allowing a portion of grain to be replaced.
- Horses prone to 'tying-up' will benefit from replacing a portion of the grain in the daily ration with **Dunstan Trifecta Oil**.
- For poor doers or hardworking horses when high intakes of supplementary feed are already being provided, adding some **Dunstan Trifecta Oil** to the daily feed will result in an increase in calorie contribution without the horse having to consume more feed.
- **Dunstan Trifecta Oil** combines the essential fatty acids found in three different Vegetable Oils.
- **Flax Seed Oil** provides for Omega 3 Linolenic Acid, to enhance the natural immune system and cell development. It also assists with anti-inflammatory re-actions should the diet contain a high proportion of the more conventional Omega 6 fatty acid.
- The addition of unrefined **Rice-Bran Oil** to this formula offers a further source of Omega 6 for **coat sheen and condition** and also a significant content of Gamma Oryzanol which has a **positive role in weight gain and muscle development**.
- A natural antioxidant containing Rosemary extract and Vitamin E helps maintain product stability and maximise shelf life.

FEEDING RECOMMENDATIONS

The recommended feeding rates are based on a 500kg horse and are guidelines only.

Horses in Work and for Weight Gain:
Add to the diet at 25 - 30 ml per horse per day, building up to 100 – 250ml over a period of 14 days.

Yearling Prep:
Introduce to the Yearling diet at 25 ml per horse per day during Yearling Prep, building up to 50-100ml over a period of 14 days to enhance skin condition and coat sheen

- General Notes:**
- Shake well prior to use to ensure a homogenous mix of the different oil types used in the **Dunstan Trifecta Oil** formulation.
 - Store in a cool dry place. Replace top after use.

INGREDIENTS:

Rice Bran Oil, Soya Oil,
Flax Seed Oil
Natural Antioxidant

TYPICAL ANALYSIS

Oil.....	99%
Energy DE.....	37 MJ/kg
