MULTI-ULTRA

The Ultimate Vitamin and Mineral Supplement.

- Premium Vitamin and Mineral supplement
- Ideal supplement to pasture for 'good doers'. Due to low intakes **Dunstan Multi-Ultra** contributes few calories daily but provides a **full profile of key Vitamins and Minerals**.
- Provides nutrients necessary for **health, vitality and performance**
- Suitable to '**balance**' straight grain diets
- '**Top- Up**' nutrients if feeding below the recommend intake of complete feed
- Highly palatable
- Minerals are provided as **Glycinate Organic Trace Minerals** resulting in **improved bio-availability**.
- **Organic Selenium** as **Selenium Yeast** is included to provide a **highly available** and safe form of **Selenium**.
- Vitamin E is also included in a **bio-available form as Natural Vitamin E**
- The addition of **Mannan Oligosaccharide** and **Aluminosilicate Clay** to assist in managing seasonal pasture challenges.
- Inclusion of a **live yeast** assists in complete nutrient digestion. It also assists in contributing to **overall health of the intestinal ecosystem of the horse**.
- **Chromium Yeast** is included as an aid to overall energy utilisation and to help reduce lactic acid accumulation.

INGREDIENTS

Wheat By-Product, Soya Bean Oil, Molasses, Salt, Limestone, Agrimos, Zeolite, Live Yeast, Lysine, Methionine, Chromium, Flavouring, Organic Glycinate, Trace Minerals, Vitamins.

Typical Analysis

(Approximate on a Dry Matter Basis)

Crude Protein	10.0%
Fat	4.0%
Fibre	4.0%
Salt	2.0%

Nutrient Composition

Typical Analysis per 500grams of Dunstan Multi-Ultra (as fed)

Vitamin A	40,000i.u

Vitamin E	500mg
Potassium	1.0%
Calcium	1.0%
Phosphorus	0.5%
Magnesium	0.7%
Zinc (Organic)	400mg
Lysine	1000mg
Copper (Organic)	200mg
Methionine	500mg
Manganese	100mg
Live Yeast	2000mg
Iodine	2.0mg
Cobalt	2.0mg
Selenium (Organic)	2.5mg
Chromium (Organic)	0.1mg
Mannan Oligosaccharide	10g
Aluminosilicate Clay	10g

Heat stable Vitamins added at the time of manufacture

FEEDING RECOMMENDATIONS

(Rates per horse per day)

Ponies	200 - 400grams
Horses	500grams

NOTES:

- If mineralised proprietary feeds are being fed at amounts between 1-2kg per day, the feeding rate of Dunstan Multi-Ultra should be reduced to 200grams (based on a 500kg horse)
 - Do not feed **Dunstan Multi-Ultra** as a full horse feed or in addition to proprietary mineralised feeds being fed at rates greater than 2kg per day.
 - Ensure adequate fibre intakes by providing 1% - 1.5% per day of the horse's body weight as chaff, hay, Dunstan Betabeet/Sugarbeet or pasture (on a Dry Matter basis).
 - Always introduce a new feed gradually over a period of 7 - 10 days.
- Always ensure the Horse has access to clean drinking water.
- High Copper levels in Dunstan Multi-Ultra make it unsuitable for feeding to sheep.

Dunstan Horse Feeds are produced in Equine-Safe manufacturing plants.

Professionally formulated for New Zealand Horses performing under New Zealand conditions
